

SHOES MADE IN EU

3rd Newsletter 30/11/2016

- The training programme (curriculum) was designed according to the Knowledge, Skills and Competences (KSC) methodology.
- The activities and tasks from the Occupational Profile have been transformed into Training Units. The programme is divided in training units and sub-units. They have similar structure, and include a brief mention of the pedagogic objectives.
- The Structure of each unit was established and Learning Activities have been detailed. The training programme is designed in order to accomplish 30 ECVET points.
- All partners will contribute to the training programme, which will take into account the already existing curricula in place in DE, IT, PL, and PO.
- The training programme includes 14 units.

development of
training path

- On 20-21 November 2016, the Institute of Leather Industry organised the first multiplier event to disseminate the results of the first intellectual work of the Erasmus+ project "*Shoes Made in EU: The European Shoemaker*". The event was under the patronage of Marshal Office.
- The first day introduced participants to the project activities and objectives, the work so far achieved and future actions.
- The second day focused on more practical aspects with a workshop, during which guests had the opportunity to familiarise themselves with the basics related to design of footwear. This workshop exercise enjoyed a huge success and attraction from different categories of stakeholders.
